*Mary Washington Healthcare, in compliance with the Internal Revenue Service regulations related to section 501(r) of the Affordable Care Act, created the following document to provide a road map on how it will use the findings of the Rappahannock Region Health Needs Assessment to ensure it is meeting the needs of the communities it serves.*

### **Community Health Needs Assessment Summary**

Mary Washington Healthcare and the Rappahannock Area Health District launched the Rappahannock Region Community Health Needs Assessment in January 2015. The Rappahannock Region was charged with completing a Community Health Needs Assessment to identify high priority healthcare needs within the regional Mary Washington Healthcare service area. The Rappahannock Region is financially supported by Mary Washington Healthcare, the Rappahannock United Way, the Rappahannock Area Community Services Board, GEICO, Rappahannock Area Health District, Mary Washington Hospital Foundation, and Spotsylvania Regional Medical Center. The Health Communities Institute out of Stanford University was contracted to facilitate planning meetings, gather and analyze related data, and manage project timelines and schedules.

The Rappahannock Region established two committees: Advisory and Steering. The Rappahannock Region Advisory Committee comprises 40 community volunteers representing regional hospitals, health departments and insurers, private businesses, community-based organizations, and healthcare and mental health services providers. The Rappahannock Region Steering Committee includes representatives from Mary Washington Healthcare, the United Way, GEICO, the Moss Free Clinic, the University of Mary Washington, Spotsylvania Regional Medical Center, and the Rappahannock Area Health District.

Data Collection for the Rappahannock Region Community Health Needs Assessment focused on the following areas: community input, vital statistics, reasons for doctor and clinic visits, risk factors for common illness, lifestyle improvements, and localities where residents were not meeting established health targets. Some data is available only on the countywide level but still provides valuable information. Both qualitative and quantitative data were collected between April and August 2015.

#### *Qualitative primary research:*

The qualitative primary research for the 2015 Community Health Needs Assessment was conducted by key informant interviews with community leaders from public and private organizations selected for the Rappahannock Region Advisory Committee and engagement of Mary Washington Healthcare's Citizen Advisory Council, along with solicited community input.

#### *Secondary data and information sources:*

Information was obtained from a number of different sources such as the Healthy Communities Institute's Community Health Information Resource tool (CHIR), the Virginia Department of Health, the American Community Survey, the Urban Institute, Healthy People 2020, and information supplied directly from a sample of healthcare service providers within the defined community.

- Cancer support group participants will acquire additional knowledge regarding resources and self-care following participation, as measured by pre- and post-test analyses.
- There will be an increased likelihood of identifying cancer cases at earlier stages.
- The community will be educated on cancer prevention and risk factors, treatment options and insurance information, as measured by pre- and post-test analyses to measure self-efficacy (patients' confidence in their ability to perform certain health behaviors) rates in patients and the connection with their health outcomes.
- Increase opportunities to have an integrated medicine approach to treating cancer.
